-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. In papers filed on November 29, 2004 applicant filed a Request for Continued Examination (RCE); amended claims 1, 10, 12, 24, 29 and added new claim 31. Amendments made to claim 10 made the claim substantially different in nature than other claims. Claims 10 and 11 are directed towards a more specific invention.

Election/Restrictions

2. Claims 10 and 11 are restricted by way of election by the original presentation. The newly amended independent claim 10 is substantially different than the invention claimed in the original application. Claims 10 and 11 are directed towards a method of printing an image from memory using first and second synchronization signals and the specific action taken with such signals, where remaining claims are directed towards authenticating the ink cartridge and printer and obtaining the image from memory using the image access unit.

Applicant by definition, at the time of presentation of original claims, has made an election among the disclosed inventions in the specification. Any divergent invention from the ones originally claimed can be restricted.

Therefore, claims 10 and 11 are withdrawn from examination (See MPEP 818.02(a)) for the above reasons.

Art Unit: 2622

3. Applicant was contacted by email, since a telephone call could not be made to Australia, regarding cancellation of claims 10-11 in order to put the case in condition for allowance and to close prosecution. No response was received at the time of this office action.

Claim Objections

4. Claim 10 is objected to because of the following informalities: It is not clear in the preamble whether applicant is claiming a method or a product. Appropriate correction is required.

Response to Arguments

5. Applicant's arguments, filed November 29, 2004 with respect to claims 1-9 and 12-31 have been fully considered and are persuasive. The rejection of claims 1-24 has been withdrawn. Applicant also provided a response to the rejection under 112 for claim 7. Examiner appreciates the explanation and considers the response acceptable. Rejection under 112 is now removed.

Allowable Subject Matter

6. Claims 1-9 and 12-31 are allowed.

The following is an examiner's statement of reasons for allowance: Applicant's arguments as stated on page 8,9 and 10 of the amendments under Remarks are persuasive.

Art Unit: 2622

The prior art and the prior art of record, specifically Miura does not teach or suggest an image access unit for writing and reading image data to RAM 182. Instead the prior art teaches CPU performing this task not the image access unit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Contact Information

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to (Iraj) Alan Rahimi whose telephone number is 703-306-3473. The examiner can normally be reached on Mon.-Fri. 7:30-4:00.
